

Product Sheet / Specification

Product: Ginsanity "Raspberry" Gin

Description:

"Raspberry" is a gin with 42,5% alcohol content, produced using the London Dry method. The London Dry method means that one distillation process is being used and that the whole distillate has more than 70% alcohol content and less than 0,3 gram sugar / liter. By using only natural ingredients / botanical a premium spirit is being formed. The spirit can be consumed neat as well as a classical Gin & Tonic or in cocktails. By using fresh raspberries, the gin has a wonderful fruity note.
